FOOD SUPPLIER ONE-SHEET

Your surplus can feed your community.

When safe surplus is cheaper to dispose of than to move, NEEDS helps you send it to local nonprofits where it can become meals.

THE OPPORTUNITY

A full pallet, a short-dated product, a canceled order, or a product that does not fit the next shipment can still help people nearby. NEEDS makes the connection to a nonprofit ready to use it.

START WITH ONE LOAD

Tell us what you have, when it can move, and who to contact. We will help make the first handoff simple.

WHAT HAPPENS NEXT

1. Tell us what you have

Share the product, timing, and best contact.

2. Choose a pickup window

We find a practical time for the first handoff.

3. Meet the local partner

NEEDS connects the food with a nonprofit ready to use it.

4. Make the handoff

Your surplus leaves the dock and starts serving people.

5. See the impact

We share the simple story of where the food went.

6. Do it again

Repeat the route when it works for your team.

MAKE THE INTRODUCTION

I wanted to connect you with NEEDS Foundation. They help food suppliers move safe surplus to local nonprofits where it can become meals.
